

WANT TO ADVANCE YOUR CAREER AND LEARN MARKETABLE NEW RESEARCH SKILLS

Explore what the **Population Health Data Analysis Certificate (PHDA)** can do for you!

Designed for those who work in health or social sciences fields, this program provides an excellent opportunity to revitalize your current career, earn professional development credits* or get started in a rapidly diversifying field. This unique program offers:

- A flexible, fully online format
- A diverse set of analytic courses
- *Applied Pro D training

Apply now for the Professional Specialization Certificate in Population Health Data Analysis or take up to two stand-alone courses listed below for professional development starting January 2018.

Do you want to develop skills in the use of administrative data?

[PHDA01: Working with Administrative Data](#) provides an excellent orientation to get you on the right track.

- Learn how admin data is used for research
- Develop a data dictionary for your analytic data set
- Gain basic statistical analysis skills to work with admin data
- Use 'real-world' admin health data and practice SAS skills via our remotely-accessed Secure Research Training Lab

Do you want to develop your analytic skills in the field of Epidemiology?

[PHDA 02 Epidemiological Statistics](#) provides a practical orientation to the field of epidemiology.

- Learn to critically evaluate articles in the biomedical and epidemiologic literature
- Examine specific epidemiologic methods including data collection, study design and statistical analysis
- Use 'real world' admin health data to learn analytic techniques/methods via our remotely accessed Secure Research Training Lab (SRTL).

Read what PHDA students have to say about their learning experience

The skills acquired in PHDA courses align with the Public Health Agency of Canada's Core Competencies for Public Health Professionals and are eligible for 10 Professional Development (CPE) credits with CHIMA and CIPHI.

These fully online, non-credit courses are offered as a partnership between Population Data BC, the University of Victoria, Division of Continuing Studies and the Department of Geography.

*Note: **Registration is open until January 2, 2018**, subject to availability.*

Please review program eligibility requirements prior to registering and ensure you allow adequate time for processing your application and supporting documents prior to the registration deadline.
