## CSEB 2019 Student Data Challenge

Attention all students attending the 2019 CSEB National Meeting

There will be a CSEB student data challenge taking place at the conference. This will be a friendly competition for Epidemiology and Biostatistics students across Canada.

Groups of 2-5 students will be given a dataset and asked to complete a 5-day data challenge that involves running an analysis using a given data set and communicating to policymakers (in keeping with the conference theme). All teams will be judged based on analytic approach, creativity, data visualization and communication. The competition will culminate in a 5-minute presentation at the end of the conference where the winner will be chosen.

If you are interested in joining the data challenge please send an **email to register** at [pophealthanalytics.dlsph@utoronto.ca](mailto:pophealthanalytics.dlsph@utoronto.ca) by **May 8, 2019, 11:59pm** with the following information:

**Team Name:**

**Team Members (2-5 students):**

**Affiliation(s):**

**Main Contact person with email address (for all competition communication):**

We are looking forward to your entries and crowning the 2019 student data champions!
